13: Lab 13 - APPLIED- Implement backups

Security+ (Exam SY0-701)

13/13

Congratulations, you passed!

Duration: 20 minutes, 51 seconds

☑ **Confirm document01.txt, document02.txt, & document03.txt exist in C:\Users\Jaime\Documents\document02.txt C:\Users\Jaime\Documents**   *Score: 1*
Select the **Score** button to validate this task:
```
File C:\Users\Jaime\Documents\document01.txt exists

File C:\Users\Jaime\Documents\document02.txt exists

File C:\Users\Jaime\Documents\document03.txt exists

Task complete
```

☑ **Confirm C:\Users\Public\document04.txt exists**   *Score: 1*
Select the **Score** button to validate this task:
```
File C:\Users\Public\document04.txt exists

Task complete
```

☑ **confirm backup**   *Score: 1*
Select the **Score** button to validate this task:
```
Backup exists

Task complete
```

☑ **confirm C:\Users\jaime\document01.txt does not exist**   *Score: 1*
Select the **Score** button to validate this task:
```
File C:\Users\jaime\document01.txt does not exist

Task complete
```

☑ **confirm C:\Users\Public\document04.txt exists (again)**   *Score: 1*
Select the **Score** button to validate this task:
```
File C:\Users\Public\document04.txt exists
```

Task complete

☑ **confirm VSS is enabled on C:** *Score: 1*
Select the **Score** button to validate this task:
Volume Shadow Copy Service is enabled on drive C:

Task complete

☑ **confirm document04.txt contains "changed"** *Score: 1*
Select the **Score** button to validate this task:
File C:\Users\Public\document04.txt has first line 'changed'

Task complete

☑ **confirm document04.txt previous version is restored** *Score: 1*
Select the **Score** button to validate this task:
File C:\Users\Public\document04.txt exists and first line is not 'changed'

Task complete

☑ If a file is deleted, which of the following options can be used to restore the file? (choose TWO) *Score: 1*

☑ <u>Backup</u>
☐ Security/Audit Log
☑ <u>Volume Shadow Copy Service</u>
☐ Host-based IDS

Congratulations, you have answered the question correctly.

☑ If a file has been modified, which of the following options can be used to restore the file? (select TWO) *Score: 1*

☑ <u>Backup</u>
☑ <u>Volume Shadow Copy Service</u>
☐ Security/Audit Log
☐ Recycle Bin

Congratulations, you have answered the question correctly.

☑ What is a best practice for backups? *Score: 1*

○ Keep all backups onsite.
● <u>Store essential backups offsite.</u>
○ Use the same media for backups that is used on the original system
○ Backup should be destroyed after 6 months

Congratulations, you have answered the question correctly.

☑ What is the most important consideration when setting a backup schedule?   *Score: 1*

   ◉ How much data can be lost and still be able to restore business functions
   ○ Amount of data to be backed up
   ○ The speed of moving data to a backup
   ○ Whether a cloud backup option is being used

Congratulations, you have answered the question correctly.

☑ In addition to backups and the VSS, where else might a data file be restored from on a   *Score: 1*
Windows system?

   ◉ Recycle Bin
   ○ Installation media
   ○ Firmware
   ○ Insurance coverage

Congratulations, you have answered the question correctly.
