

17: Lab 17 - Assisted - Performing vulnerability scans

Security+ (Exam SY0-701)

Congratulations, you passed!

Duration: 28 minutes, 3 seconds

What types of credentials can be defined for a scan target? (Select all that apply)

Score: 1

- SSH
- TLS
- SMB
- SMTP
- ESXi
- SNMP
- LDAP

Congratulations, you have answered the question correctly.

Validate MS10 with credential target

Score: 1

Select the **Score** button to validate this task:

Target with credential found ...

Note that the username and password have not been verified ...

Task complete

When you expand a vulnerability's details summary, which of the following sections of information are displayed?

Score: 1

- Detection Result
- Insight
- Detection Method
- Affected Software/OS
- Exploit Source
- Impact
- Solution
- References

Congratulations, you have answered the question correctly.

What single metric change raises the CVSS score of CVE-2022-32168 from 7.8 to 8.8?

Score: 1

- Set Attack Vector to Network
- Set Attack Complexity to High
- Set User Interaction to None
- Set Scope to Changed

Congratulations, you have answered the question correctly.

GSA (a.k.a. GVM or OpenVAS) can be used to evaluate which of the following? Score: 1

- websites
- databases
- private network systems
- hosts over the internet
- all of the above

Congratulations, you have answered the question correctly.

What vulnerability scan has the greatest potential to discover system weaknesses? Score: 1

- offline scan
- credentialed scan
- survey scan
- discovery scan
- uncredentialed scan
- port scan

Congratulations, you have answered the question correctly.

What is the default presentation order of findings in a GSA report? Score: 1

- Highest severity first
- Alphabetical
- Numerical based on CVE number
- Lowest severity first

Congratulations, you have answered the question correctly.

What site hosts the CVSS for a CVE record? Score: 1

- cve.nist.gov
- cve.mitre.org
- nvd.mitre.org
- nvd.nist.gov

Congratulations, you have answered the question correctly.

What is the Rating for a CVSS Overall score of 7.8? Score: 1

- Critical
- High

- Medium
- Low
- None

Congratulations, you have answered the question correctly.
