21: Lab 21 - APPLIED - Hardening
Security+ (Exam SY0-701)

9/9

Congratulations, you passed!

Duration: 12 minutes, 20 seconds

☑ Which device driver management function will prevent the use of a device even after rebooting or re-scanning for hardware changes?   *Score: 1*

- ◉ <u>Disable</u>
- ○ Enabled
- ○ Uninstall
- ○ Reinstall

Congratulations, you have answered the question correctly.

☑ If you need to install or re-install a Windows feature or service, which utility should be used?   *Score: 1*

- ○ Computer Management
- ○ Server Manager
- ◉ <u>Add Roles and Features Wizard</u>
- ○ File Manager

Congratulations, you have answered the question correctly.

☑ What is the proper syntax for entries in the /etc/hosts file?   *Score: 1*

- ○ [FQDN][tab][IP address]
- ◉ <u>[IP address][tab][FQDN]</u>
- ○ [FQDN][tab][priority][tab][IP address]
- ○ [IP address][tab][metric][tab][default gateway][tab][FQDN]

Congratulations, you have answered the question correctly.

☑ What features or capabilities can be obtained through editing the /etc/hosts file? (Select all that apply)   *Score: 1*

- ☑ <u>Redirect to a different functioning site</u>
- ☑ <u>Block resolution to the correct IP address</u>
- ☐ Redirect queries to preferred DNS servers

☑ Force resolution to a preferred IP address
☐ Set default gateway values

Congratulations, you have answered the question correctly.

☑ What are the two primary aspects of system hardening? (Select two) *Score: 1*

  ☐ Report
  ☑ Remove
  ☐ Install
  ☑ Update
  ☐ Detect

Congratulations, you have answered the question correctly.

☑ Which of the following are important aspects that may be performed while hardening a system? (Select all that apply) *Score: 1*

  ☑ Installing updates
  ☑ Setting firewall rules
  ☑ Removing unneeded devices
  ☑ Setting file permissions
  ☑ Adjusting DNS resolution
  ☑ Removing insecure services
  ☑ Uninstalling software

Congratulations, you have answered the question correctly.

☑ What are the two means by which you can access the *Add Roles and Features Wizard* within Windows Server? (Select two) *Score: 1*

  ☐ Group Policy Management
  ☑ Server Manager
  ☐ Computer Management
  ☑ Programs and Features
  ☐ MSCONFIG
